Khartoum Captured—Emperor Will Open a New School.—The Times on Nov. 3. Election.

LONDON, NOV. 3.—The Times states that Queen and Emperor of Wales received telegrams from Khedive on Saturday, informing them that Khartoum had fallen and Gen. Gordon was a prisoner of El Mahdi. In response telegrams of inquiry the Khedive repeated statements on Sunday.

BERLIN, NOV. 3.—The Emperor William Sunday opened the new Polytechnicum, situated on the road to the suburb of Charlottenburg, three miles from Berlin. The school is one of accommodated 2,000 students, and is considered in all its appliances, as well as gorgeous decorations and architecture.

LONDON, NOV. 3.—The Times avers that the majority of the people of the United States regard the coming election with indifference.

Prisoner at Shendi.

Cairo, Nov. 2.—A telegram from Dongola to the Khedive gives the details of the story of Gen. Gordon's capture, told by a shukhi, who left on Sunday, October 7th. The weak age of the shukhi was counterbalanced by the force of Zuhla, and provisions being scarce, the feeling of discontent and insubordination, which had for some time existed amongst the garrison, manifested itself in a violent opposition to the policy of Gen. Gordon. This feeling was shared alike by officers and men. Many of the former, who had become convinced that a future protest would result in the siege was useless, waited upon Gen. Gordon, told him of the mutinous disposition of a great part of the garrison, and asked him to order the evacuation of the town. It was then expected that he would have acquiesced in their demand. BELLEVILLE, MONDAY, NOV. 8

THE VERDICT.

The jury also made the recommendation that trains should be signalled when approaching Bridge, Campbell and Hotel Streets, and add their belief that the grade at the intersection of Bridge and Hotel Streets, is too heavy for the proposed crossing of the railway.

The jury had a very difficult task. The large mass must have been apparent to all who listened to or read the evidence as to the speed of the train. The railroad men gave estimates of the speed of the train as being that the speed at the foot of the grade was from 6 to 7 miles per hour, and at the top of the grade, where the accident occurred, from 2 to 4 miles per hour. The witnesses generally gave it as the speed of the train as it passed Bridge Street as being from 6 to 8 miles per hour, and from 8 to 12 miles per hour. Here was a conflict of testimony from respectable witnesses, which must have been very confusing, and in deciding on which to believe, no doubt found much difficulty. The recommendation that the passage of the train be signalled at the crossings is a good one. We have repeatedly, since the collision of the line, urged its different pro-

the proposed rate, let us hope that the unanimity of the jury will have the effect desired. The Grand Trunk have here refused to signal their trains on the expense. One man can do the work, and if the line is worth operating, so small an expense ought not to be in the way of preventing the danger now attends the passage of trains at the crossings. Moreover, the gift of the way to the original proprietors, to have a strong influence in deterring the company to carry out the recommendation of the jury, which we think is the unanimous wish of the people of Belleville, who have always acted justly toward the Grand Trunk.

In the opinion of the jury that the crossing at the intersection of the Grand Trunk Street grade is too heavy to allow of a satisfactory operation of the line, is no disagreement, either on the

the public or of the Grand Trunk. I believe that, were permission given, the Company would lower the grade two feet, which would render it possible to increase the speed of trains going northwardly, and lessen the danger from trains going south, whilst the street would not be injured—so we are assured by the competent to speak on the subject—The Corporation. In this connection we suggest that be necessary concession be made to the Grand Trunk on condition that the Company establish a freight passenger station on Pinnacle Street, and agree to keep the same open, and run trains for Peterborough and Madoc to terminate regularly and permanently. Such a compromise would, we feel assured, be met with the approbation of the public, and very greatly the loss of the station on Pinnacle Street.

SCOTT ACT IN PRINCE EDWARD.

The defeat of the Scott Act in Prince Edward was, to us, somewhat unexpected, although wholly a surprise. Prince Edward has long been considered one of the strongest temperance counties in Canada, over one half of its inhabitants having so long as forty years ago, pledged themselves to the temperance cause. It also, several years ago, adopted the Dunkin Act by a considerable majority, hence the passage of the Scott Act was regarded as a matter of certainty.

At it was defeated by the narrow margin of 127 votes is, on the face of the above stated, very discouraging to the advocates of the Act; but knowledge of the causes which operated to produce that result will remove that impression. Some of the causes are thus boldly stated by Rev. Dr. W. J. Ferguson:

to the Montreal *Witness*, three days prior to the taking of the vote:

"The Act is defeated here it will be defeated in the farmers. It has been thought that our farming people would be the strong supporters of the Act everywhere. However, in this county, we must look to the towns and incorporated villages for our majorities. I think we will give a good majority for the Act. The village will do the same and some others. Some of the townships will poll a favorable vote."

EDITORIAL BREVITIES.

The Tremin Grit paper says: "Thos. S. Keldges says in his report to the State Engineer that he has 100 feet of water in Bay of Quinte to 100 feet of water in Lake Ontario is six French leagues. The water in the Bay of Quinte is never lower than Mr. Rubidge did not report to the Senate, but to Mr. Page. He did not report as above stated, but that the Wellier's Bay route is the shortest by 2 miles." That unreliable sheet recklessly asserts that "Mr. Rubidge in his surveys ignored route No. 3 altogether. This is a falsehood, pure and simple, as all three routes were thoroughly surveyed and reported upon, and in addition, a fourth route with its western terminus in Weller's Bay. What will be the next invention of the sore heads

ception, of holding out false hopes that he might achieve greater glory in the battle

possible event of holding Khartoum till assistance could arrive, and declared that the temper of the garrison was such that any delay would be a sorry explanation of the situation must be made or trouble would ensue. General Gordon replied that the British expeditionary force would be ready to start at any time, making all possible speed toward Khartoum. The officers then asked General Gordon to lead them northward to meet the relief force. General Gordon agreed, and ordered Colonel Stewart to procure the necessary transport for the expedition for this purpose. This Colonel Stewart set out to do, but before he had completed his preparations, eight thousand of the garrison were killed, leaving only two thousand faithful to General Gordon. The necessity for a speedy departure was now apparent, and with

SKUNK.

THE SKUNK is a native of Canada. It is amphibious, but frequents the land more; and it carries its own stomach aboard with it. It is found in large numbers in some regions; the tender is not invariably eager to realize.

is a picturesque little animal and affectionate, but has never succeeded in becoming a law-room pet to any extent.

is the oldest representative of the

Grand Lodge in this State. He became

member of this body in 1846.

Emigre State Lodge as New York City

pays \$7 a week sick benefit, and \$500 on

death of a member. The annual dues

are \$10, and the lodge has a fund of \$15,000.

The grand lodge of New York has pro-

hibited D. D. G. Masters from visiting

lodges in their jurisdiction in any official

capacity, except at the time of installing

the officers.

New Hampshire gained 346 members

during the past term. There has been a

constant increase in the order in this juris-

diction since 1861. At that time there were

only 1,658. The total membership is now

8,945.

The Sovereign Grand Lodge has had

their session, and the Lodge and Emigre

have been governed by their acts for

another year. Now let all settle down to

work. The officers will have to be

disputing as to what is right, and what is

wrong.

Grand Patriarch John G. G. of New

Hampshire, has visited every Emigre in

this jurisdiction since his election in

1884. He has been very successful in

his efforts, and the Emigre has

been a prosperous addition, and has

been a great help to the administration of

the order in New Hampshire never-

theless to prove a position as now.

An Emigre in New Hampshire is all right

for as long as it is a part of the

brotherhood, and the questions that arise

from the lodge; indeed, it is an emigre

that is a part of the lodge, and it is not

the lodge that is a part of the emigre.

Bro. Moore, of the Music Lodge, after

trying, since last January, the experiment

of forming a weekly paper for \$4 a

year, and will hereafter issue the

Grand Emigre. (And yet the D. O.,

a weekly with much more reading matter,

is furnished at \$1 per year.—Ed. D. O.)

Past Grand Sir Sanders, of New York,

is being elected by the Grand Lodge to

be the next representative from the

Grand Emigre of that state to the

Bridge Street Church Services.

The Rev. J. B. Clarkson occupied the pulpit of the Bridge Street Methodist Church last night, preaching a sermon upon the text "Thy word is a lamp unto my feet and a light unto my path."

Mr. Clarkson stated that a remark made by Dr. Sexton in one of his lectures last evening had led him to take the text he did.

The remark referred to was: "Walk with the light and the shadows will fall behind you."

Mr. Clarkson's discourse was an eloquent one, the dedication of the hands being indispensable and unanswerable.

Joseph Murphy in "The Kerry Gow."

Referring to a recent performance of Mr. Joseph Murphy in that city, the *Brooklyn Daily Eagle* says: "Mr. Joseph Murphy made his entrance at the Park Theatre last evening, before a numerous and highly appreciative audience."

"The Kerry Gow," Mr. Murphy's O'Connell comedy, stands in no need of commendation at this late date. The part in his hands has proven ripe and mellow with age, and the genial Irish lad has become one of the most natural, facile and thoroughly convincing of dramatic impersonations.

Instant with humor, bubbling over with quaint conceits, naïve, manly and heroic, it presents a profitable study and is a source of untold pleasure to all who witness it.

The "Kerry Gow" is the most successful of the dramatic comedies of the present time, and the arrival of the career driver, bearing tidings of the fortunes of the race, were keenly relished by the audience, while the beautiful style in which the play was mounted throughout called forth warm expressions of approval."

THE DEFICATION.

It was rumored on the street this morning that a further sum of \$10,000 was missing from the funds of the Merchant's Bank, which rumor both the Inspector and Manager deny. The cashier of the Bank and many other warm friends will be pleased to hear that Mr. Wm. Hamilton has been reinstated as Manager.

British Columbia.

Victoria, B. C., Oct. 21, 1884.

To the Editor of the *Intelligencer*.

Sir:—One week ago to-day, the 14th inst., was the first anniversary of my landing in Victoria. A person coming from any of the Eastern Provinces will be greatly surprised to find the leading Province of the Dominion represented at the meeting room of the Mechanics' Institute, only by the Toronto *Weekly Globe*, and Quebec by a Montreal weekly, although there are at least a dozen daily papers in this city, and many of them, and still more sensational to be called a North American Chinaman by some of the old fogies who have had it their own way in the past, and do not wish to be disturbed. I have said many things, who are the people of British Columbia? Where do they spring from? I but got no satisfactory answer. The idea of eastern men who are doing wonders in developing the great North West, and who are at all times heartily welcomed in every State of the Union, taking the most prominent places there, being looked down upon in this part of the Dominion, but it will soon be a thing of the past.

Time brings change. The country is awaking from its dormant state, the C.P.R. road infused will do wonders. Do you remember my first impressions of the country a year ago? They have changed in the least. I am satisfied Victoria will be the Summer and Winter resort of our vast Dominion. Nature has done much for this place, a lovely site for a city, to contain a few hundred thousand people, surrounded by beautiful scenery, but above all its balmy, invigorating climate, in the language of Duffin (*Glenn*). Victoria now boasts of having more wealth, more health and invigorating climate, the most natural and scenery than any other city of temperate white population on the continent, and it is unsurpassed for its even temperature and healthfulness in the world. Will you accompany me to the beach. Shall we go? Let us go. Let us go along the harbor then around the coast. I do enjoy it so much on the beach. These vessels at the upper end of the harbor are being repaired, this ship has just come from China with a general cargo, the *Brooklyn* from the same country during the year, this one from London, also a general cargo. Those from Great Britain average 160 days around the Cape Horn. The other is loading a full load of canned salmon for London.

These two large tug-boats are employed towing vessels to the different ports, as this coast has so many currents. The other two steamers run north as far as St. Charlotte Island, this barge and steamers are unloading Nammo coal and bark is a passenger boat running to the coast, the *Brooklyn* is a work boat. These smaller craft are very handy and fishing boats will run round the coast. Here is the outer wharf where the San Francisco steamer lands and departs every ten days, one to San Francisco, the other to the coast. The boat which has been here, timber and saw-wood, is that not a lovely sight of clear blue water? There are Indians and Squaws in their native canoes, those two large ships which are heavy loaded with goods, one to Australia, the other for South America, yonder is one loaded with coal for Frisco. At last we are at the harbor. See the good looking, happy and healthy crew. I will send you papers containing the light. Here I have stood many a time contemplating the magnificent sight across the Straits. Those snow-capped mountains give us our cool and refreshing sea breeze during the summer months. We have made a round of nearly 5 miles, and are now within a mile of our starting place, the post office.

The city is all enjoying the country, and a McKee and myself expect to enjoy it more when our better halves arrive, which will be in a few days.

Yours,

Wm. POWELL.

Daily Intelligence.

Monday.
The Belleville Register recently published an item, which has been copied by nearly all of our exchanges, to the effect that "Mechanics' Lodge No. 1, N. Y. has elected as its officers, the following candidates." This was regarded as a political stunt, and was therefore completely overlooked.

BELLEVILLE, WEDNESDAY, NOV. 12.

MERE MENTION.

The police made two arrests last night.

If you want good meat, go to W. H. Geary's, Bridge St.

The Young Men's Liberal Conservative Club will meet at their rooms to-night.

Joseph Murphy and his company have arrived and are registered at the Delos and Queen.

The time has again arrived when aspirants for civil honors begin to look their prospects.

Mr. Murphy will have a big house to-night. Nearly all the reserved seats were sold by 11 o'clock this morning.

The Finance Committee of the Board of Education met last night and passed all accounts presented, amounting to \$760.28.

A workman occupied yesterday near Niagara Island, and weighing forty-two pounds, in an exhibition in Taylor's show window.

The average attendance at the city public schools during the past month of Oct. was larger than during any similar month since the year 1877.

An exchange remarks, with more candor than gallantry: "The past season's boom in chicken clippers is probably due to the fact that this is a busy year."

The public are cautioned against driving over the sidewalks on the High School grounds with teams, as these grounds are not intended as a thoroughfare.

Irma Lott, of the 6th concession of Sidney, reports to the police station that yesterday near the market a child, full of corn, was stolen from her wagon.

The workmen have arrived and will to-morrow commence the work of erecting the telephone poles necessary to secure the connection of the local system with the trunk line.

The first annual union of the Brotherhood of Locomotive Engineers and Brotherhood of Locomotive Firemen will be held in the City Hall on the evening of Tuesday, Nov. 26th next.

This departure from the Council of the Board of Trade who were appointed to investigate the authorities of the Great Western and Canadian Pacific, will not go to Montreal until next week, as Mr. Hickson is at present in New York.

In the police court this morning Donald McKinnon, driver, was fined \$2.00, John Brown, alias Bonner Brown, vagrant, drunk and creating a disturbance, was given 12 o'clock noon to leave town. He was promised 6 months in the central prison if he appeared and was again granted on account of his poverty.

DEPARTURES FROM BOARDS OF TRADE AND CITY COUNCILS are writing on the General Manager of the Great Western, the view of obtaining the establishment of car shops in the cities they represent. Although valuable inducements have been offered, many, the location of the car shops is still an uncertainty.

The play "The Kerry Cow," in which Joseph Murphy takes the leading part, was presented at Brookville on Monday night, and people were turned from the doors, being unable to gain admittance on account of the crowd. The same play by the same company will be presented in the Opera House here this evening.

The police of this city have received advice of a heavy Coupon Bond robbery which took place on the 21st at Woodstock, N. Y., from the Adams Express Company, and have been requested to get possession, if possible, of some of the bonds enumerated in the list. Finkerton's Detective Agency is working the matter up.

The Dorcas Association of the W. C. A. wish to remind their lady and gentlemen friends that they will thankfully receive surplus clothing and all the present time many deserving poor are looking to them for aid, and at the same time the ladies of the W. C. A. beg to inform their friends the congregation of St. Thomas and Christ Church as well as the united congregations that worshipped at St. Thomas Church on Thanksgiving day, for having kindly donated their offerings to the fund of the Hospital and Home for the Friendless.

Weather Probabilities.

To-morrow, Nov. 12.—Light, moderate wind, between 50 and 60, fair to clear, but weather, slightly cooler tomorrow.

TEMPERATURE.

Joseph Murphy as "Dan O'Hara."

The Philadelphia Record says of Joseph

Murphy's performance "The Kerry Cow":

There is a perennial freshness to the

drama of Irish life in which Mr. Murphy

appears, and they never seem to

lose their hold upon the public attention.

As the O'Hara's, "The Kerry Cow,"

he holds the mirror up to phases of human

nature in a manner to thrill his auditors.

For aught he depicts a large audience,

exciting them to alternate applause and

laughing or hushing them to almost death-

ly silence by the force of his delineation.

HIDE INSPECTOR'S DISGUST.

Before the Police Magistrate this morning

Mrs. E. Frank Moore & Co., tax-

smen, of Montreal, made a claim of \$102 on

account of a lot of hides bought from

Messrs. Plippen & Graham, of this city,

in August last. The hides were inspected

by Inspector John Hickey, who pre-

sented them No. 1, and who granted a

certificate accordingly. On reaching Mon-

tréal the hides were found to be unsatisfac-

tory, and a Montreal Inspector pronounced

them No. 3. The amount claimed is for

the estimated difference in quality between

No. 1 hides, which Messrs. Moore & Co.

say they bought, and No. 3, which they

received. The hides are to be returned

here for inspection by three gentlemen

chosen by Messrs. Moore, Plippen & Graham,

and the third by the Police Magistrate.

PROTECTION

By G. H. McLELLAN

"The child protects the people's speech"

An aged priest in days of old

Who bound a prince with solemn oath

And gave the scepter to his heir

Still ruling down the generations of time

And ending in each ruler's name

Has handed that commandment down

Which shall protect, through all the years

Are only given the nation's strength

And from the nation's strength

With certain words throughout its length

Protect us in our nation's strength

"Protect us in our nation's strength"

Protect us in our nation's strength

Protect us in our nation's strength

Protect us in our nation's strength

Protect us in our nation's strength

Protect us in our nation's strength

Protect us in our nation's strength

BELLEVILLE, MONDAY, NOV. 17.

PROTECTION AND ITS EFFECTS.

Under this heading the Moncton Times

discusses with its local Grit contemporary

the question whether the home competition

which has arisen as a result of the National

Policy is a "good thing" or a "bad thing."

The Intelligencer, says our contemporary,

has itself admitted that the low prices resulting

from this competition are a good thing for

the people who have to buy the farmers

being the largest class. The arguments of

the protection, including the Tariff and

the protective duties, have argued that it was

highly desirable that Canada should be made

a "cheap country to live in." Then why

does the Tariff exist? It is not a "good thing"

question. Since it has done so, however,

the Times will accept that too much home

competition is not a good thing for the

country. Low prices are not always a good

thing for the country. It is not a "good thing"

who prices the lowest prices are hardest.

There has seldom, possibly never, been a

time when the prices of lumber and four

and manufactured goods all over the world

were as low as they now are; what is called

depression in business to world-wide.

The manufacturers and the lumbermen and

the other producers in Canada who are obliged

to carry on business at low prices are in

the same position as the other countries.

The Tariff, however, is not a "good thing"

for the country. It is not a "good thing"

for the country. It is not a "good thing"

for the country. It is not a "good thing"

for the country. It is not a "good thing"

THE VOTERS' LISTS.

The announcement of the date of the

election in this city is to be given at To-

morrow in the issue of the Grit newspaper.

The voters' lists, which have, in common with

the other cities, been in the hands of the

Right Honorable gentlemen, but have now

been placed in the hands of the public, are

to be given with a view of grasping upon

the voters' lists and with political "trick."

From a press that supports the Moncton

Grit, we have learned that the voters' lists

in the Province for political purposes, and

also contemplating grasping the appointment

of school teachers, the nomination is to

be the least, but we can see, under

lying it, a subtle suggestion to the num-

bers of their own party to look well to the

voters' lists and with political "trick,"

and with safe city "politics,"

but in every case to look to the voters' lists

office. If this game can be carried out we

will see the same result as we have witnessed

in Toronto and other places where the

polls have been decided to suit their ends.

We believe that every man who is really

entitled to a vote should have the right

to vote in the polls, and we hope that the

friends of free Government, in this city

and throughout the country, will look

carefully over the rolls and see that

the voters' lists are correct and that the

voters' lists are correct and that the

voters' lists are correct and that the

voters' lists are correct and that the

voters' lists are correct and that the

THE WOMEN OF VIENNA.

The education of girls in Vienna is

what peculiar and worthy of note, writes

a correspondent of that city. Up to fifteen

years of age they are kept at their studies

and are not deprived of society. They dress

very simply, rarely wearing a silk gown

until they leave the school-room for the

ball room. After they leave school

they go through a year or even two years

teaching in the primary and in the kitchen

under some member of the family, or even

in some cases, in another family under

trained cooks. They may never be required

to cook a dinner, but they are thus required

to be independent of cooks and servants, and

to learn how to do everything themselves

long before they begin housekeeping on

their own account. When married, they

are not affectionate wives and mothers.

An Austrian lady, in fact, is as accom-

plished and learned as an English governess,

as good a housekeeper and cook as a Ger-

man, as expert a needlewoman as an Italian,

and as handsome as an American, some of

the most beautiful women in Europe being

in Vienna. German and also Austrian

are celebrated for their stocks of linen.

They have a great deal of linen, the wear-

ing of her linen is begun, and every year

she purchases a new stock of linen, and

she keeps it in a chest, and every year

she purchases a new stock of linen, and
